CERTIFICATIONS

CERTIFICATION	CERTIFYING AUTHORITY	DESCRIPTION
Python 101 for Data Science	IBM and Cognitive Class	
Problem Solving Basic	HackeRank	
Python Basic	HackeRank	Basic Python Certifiaction
Data Analysis with Python	freecodecamp	Data Analysis with Python
SQL Intermediate	HackeRank	SQL Intermediate Certification
SQL Basic	HackeRank	SQL Basic Certification

AWARDS AND RECOGNITIONS

OORJA | Tata Chemicals Limited   Jul 2009
Won best child actor 2009-2010

COMPETITIONS

Hacksummit 2.0   Oct, 2021
The main goal of our project disaster management is to reduce the damages and to safeguard common people including physically challenged people during the natural calamities. So here we are trying to create a website Portal with the following objectives :
- Reducing vulnerability and potential losses of hazard by alerting the necessary info of the upcoming disaster.
- Assessing, reviewing and controlling the risk. Applying efficient, effective, sustainable relief (food, shelter and money), medical and other facilities in disaster affected people thus they can survive.
- Reducing the damage, death, sufferings and destruction of any natural and human induced disaster.
- Ensuring the availability of local emergency equipment and transportation through NGO's and government helpline numbers.
- NGOs organizations can join these website so that the donated money can be given to the people who are in need.

CONFERENCES AND WORKSHOPS

Workshop on Making Sense with Data

Organized by: **TCS** | Date: **Jul 2021**

Tata Consultancy Services(TCS) held workshop on Making Sense with Data Analysis

---
